

Data adapter cable

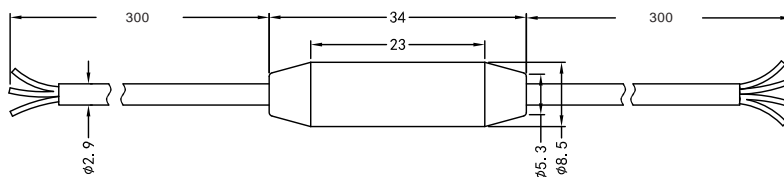

Model

NPN 转 PNP NPN to PNP	DAC-N2P
PNP 转 NPN PNP to NPN	DAC-P2N

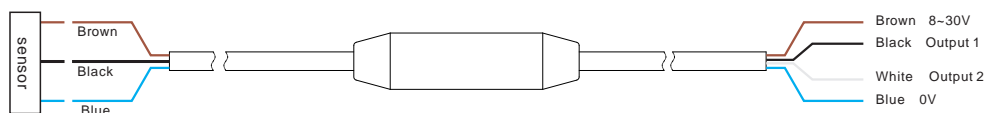

Technical parameters

Circuit protection	Polarity protection	Load current	≤ 150mA
Operating temperature	-20°C~60°C	Residual voltage	≤ 1V
Storage temperature	-40°C~85°C	Switching frequency	≤ 5KHz
Input voltage	8~30V		

Dimension

Wiring Diagram

The sensor output status before the transfer	After the transfer , the cable corresponds to the output state
NO (normally open)	Black: NO (normally open) White: NC (normally closed)
NC (Normally Closed)	Black: NC (Normally Closed) White: NO (normally open)
